

## WDCS objectives are:

- To reduce and ultimately eliminate the continuing threats to cetaceans (whales, dolphins and porpoises) and their habitat
- To raise awareness of these wonderful animals and the need to protect them in their natural environment.

WDCS is unique in combining concern for the welfare of the animals with efforts to ensure the protection of whole species, unique populations and their habitats. WDCS is an international organisation with offices in the UK, US, Germany, Argentina and Australia.

WDCS is the global voice for the protection of whales, dolphins and their environment.

## What adopters receive

A welcome pack including:

- a postcard of your adopted dolphin
- a personalised adoption certificate
- regular updates on your dolphin's activities
- WDCS information and magazines

**Billie** was born about 1985 and is known to many of us as the dolphin who swam with horses in the Port River when she was a young orphan.

**Spunky** gets his name from the fact that he is relatively small for an adult male but does not let his diminutive size prevent him from taking on much larger males in fights, if necessary.

**Sparkle's** most recent calf is called Melody. We hope Melody is able to keep out reach of fishing lines which have entangled her big brother, Twinkle, on numerous occasions.

## Captain Hook

Hookie is now at least thirty years old being first identified in 1989. He is the leader of the "A" team who can be frequently seen cruising the Port River.

You can read more about these dolphins and others online at [www.wdcs.org.au](http://www.wdcs.org.au)
